A reminder of the current guidance regarding possible COVID-19 infections:

People with symptoms of a respiratory infection

UKHSA guidance sets out that people with symptoms of a respiratory infection, such as COVID-19, and who have a high temperature or do not feel well, should try to stay at home and avoid contact with others. Those who are asked – or choose to test – and get a positive COVID-19 result should try to stay at home and avoid contact with other people for five days following the day of their positive result.

There is some evidence that children have a shorter duration of illness compared to adults. Children and young people who are asymptomatic, choose to take a COVID-19 test and receive a positive test result are advised to stay at home and avoid contact with other people for three days after the day of the test.

Source: <https://www.gov.uk/government/news/new-guidance-sets-out-how-to-live-safely-with-covid-19#:~:text=There%20is%20some%20evidence%20that,day%20of%20the%20test.>

The likelihood is that if children are now absent due to a COVID infection, then they will be unwell and not expected to complete home-learning, therefore the school's virtual teacher programme will no longer run. If your child tests positive *and* you feel that your child is well enough to work during the three-day isolation period, please contact the school and we will arrange some activities for them.

Yours sincerely,
